Laptop & Hotspot Lending, Virtual Tutoring at Nacogdoches Public Library

(Nacogdoches, TX) – The Nacogdoches Public Library has been awarded a #NacBends Technology Grant that will provide laptops and hotspots for patrons, who have been members of the library for at least six months and are in good standing, to check out and take home. Additionally, the library website now features a link to Brainfuse, a free virtual tutoring program that will be available daily from 2:00pm-11:00pm. This project is made possible by a grant from the U.S. Institute of Museum and Library Services and Texas State Library and Archives Commission. “Communities in every corner of Texas will benefit from the resources that have been made available through this list of forward-thinking grant proposals,” said TSLAC Director and Librarian Mark Smith.

The library is open for in-person browsing and checkout and computer use Monday through Friday from 10 am to 6 pm. Visits are by appointment and can be made by calling (936) 559-2970. Curbside Ordering & Pickup also remains available. Online orders can be placed at www.nactx.us/library.
